World of Fasteners & Wiring

**Letter of recommendation**

To all interested parties,

As a customer of Zigboom Designs and as someone who worked with Zig directly while building ImportTech website, I highly recommend Zigboom Designs.

Working with Zig was very pleasant.

On a personal level, Zig was very attentive to all our needs and provided many solutions and information, which we implemented on ImportTech site.

At the product level, we received a site to our satisfaction, after quite a bit of deliberation in which Zig had to change and adapt to our needs without any reservations about the work he had to put into it.

Zig is pleasant, reliable, patient and Professional person

I believe the experience of working with Zig will be very good for anyone who decides to work with him.

I wish Zig success in everything.

With great appreciation.

Yaron Gabbay
